

THANKSGIVING.

There will be no paper issued from this office to-morrow.

A WONDERFUL MINE.

Reports come from Oroville, Cal., that the Golden Gate mine is yielding such immense returns that it will pay fifteen instead of ten millions in dividends.

The mine is merely three-quarters of a mile of the bed of the Feather river exposed. It is a deep cut in the rocks, that has for years baffled all engineering skill, until Major Frank McLaughlin took hold of it, and lifting the entire river 70 feet from its bed, flumed it three-quarters of a mile.

When he breached his scheme to San Francisco capitalists they merely laughed at him, and he finally went to London, where he raised the money and went to work. He had many reverses, the elements fought him to a standstill last Summer and downed him in the Fall when his hundred-thousand-dollar dam was wiped out by the flood.

Men who were jealous of his work fought him in London, New York and San Francisco. The Major is a hard man to down, and he managed his battle with Napoleonic skill, and now the mine is panning out \$500 a minute for twenty-four hours in the day.

A strange combination is this man McLaughlin. Combined with his keen business sagacity is a constant overflow of animal spirits and in the midst of business up to his ears, he finds time to make merry with his associates, put up practical jokes and keep the table in a roar.

He always has half a dozen big schemes on hand at once and is certain to land each a winner.

With scarcely any education as a civil engineer he has accomplished one of the biggest engineering feats of his time and left no detail slighted.

Outside of business hours he is the most incorrigible practical joker and Munchausen in California while his word in money matters is as good as Jay Gould's bond from London to San Francisco. He has shown tremendous pluck and staying qualities in his enterprise and deserves all he wins.

An Eastern paper urges that California be allowed a place on the next Presidential ticket, because it stood by its regular Republican colors when the East went Democratic. Now, does it occur to the journal in the East that Nevada has always stood by its Republican colors, and gives a larger Republican percentage majority of its total vote than any State in the Union, and it never backslides? Yet it was entirely overlooked in the distribution of Cabinet positions and good offices.

The courts of San Francisco have stepped in and called a halt on the printing steal. The Daily Report has had a long grab at the city treasury and secured its printing bids through the Buckley ring. It has been the most open and flagrant piece of robbery ever saddled on San Francisco and it is high time the Courts took a hand in the game.

Exercised His Senatorial Prerogative.

SAN FRANCISCO, Nov. 25.—Senator Leland Stanford left to-day for Washington, in spite of a summons from the Superior Court to appear before it and testify concerning an alleged violation of the election laws, with which he is charged by ex-State Senator P. J. Murphy. Senator Stanford exercised his official prerogative and signed an affidavit which stated that he was called to Washington by his Senatorial duties, and that unless he started to-day he would not arrive in time for the opening of Congress on next Monday. Senator Stanford will probably be examined by a commission.

In an interview in Chicago on Thursday, Buffalo Bill said that General Miles, if left alone by the Government, would settle the Indian trouble expeditiously.

THE MANHATTAN

Life Insurance Co.,

OF NEW YORK.

ASSETS - \$12,000,000.

BETTER THAN A

GOVERNMENT BOND.

The MANHATTAN for a limited period will offer the residents of Nevada a Bond Combining Insurance and investment that is in reach of all and which every healthy able-bodied man in the State should possess—for the protection of himself and family.

In explanation read what follows: Suppose a special agent of the U. S. Treasury Department should call on you today and say:

The Government would like to sell you bonds for any amount between \$1,000 and \$30,000 and if it is not convenient for you to make the investment at once, we will allow you to pay for the bonds in

Ten Equal Annual Installments.

And, suppose, in addition to this, the Government, wishing to make this the most desirable investment in the world, should stipulate in the bond, not only to pay them at the end of the term, but in case of your previous death, to pay them to your family and AT THE SAME TIME RELEASE YOUR FAMILY FROM PAYING ANY FURTHER MONEY.

Would you not at once close with such an offer? And yet this is practically what the Manhattan Life Insurance Company, of New York has done and is doing.
